Claim 1 and 2-5 dependent thereon are rejected under 35 U.S.C. 112, second paragraph, as being indefinite for failing to particularly point out and distinctly claim the subject matter which applicant regards as the invention.

Claim 1 ends in a semicolon. Claims need to end in a period.

The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(b) the invention was patented or described in a printed publication in this or a foreign country or in public use or on sale in this country, more than one year prior to the date of application for patent in the United States.

Claim 1 as best understood, and 2,3,4, are rejected under 35 U.S.C. 102(b) as being clearly anticipated by Santa Cruz et al. 6,575,312. See Figures 1 and 2. A mounting bracket is illustrated in Figure 4.

The following is a quotation of 35 U.S.C. 103(a) which forms the basis for all obviousness rejections set forth in this Office action:

(a) A patent may not be obtained though the invention is not identically disclosed or described as set forth in section 102 of this title, if the differences between the subject matter sought to be patented and the prior art are such that the subject matter as a whole would have been obvious at the time the invention was made to a person having ordinary skill in the art to which said subject matter pertains. Patentability shall not be negated by the manner in which the invention was made.

Claims 5 and 6 are rejected under 35 U.S.C. 103(a) as being unpatentable over Santa Cruz et al. in view of Furgueson 3,667,712. Santa Cruz teach a support bracket for multiple hose attachments. Furgueson teaches a mount for a single nozzle wherein the bracket is attached to a surface via screws or nails 28, 30 through screw holes 21,23.

Art Unit: 3634

The prior art made of record and not relied upon is considered pertinent to applicant's disclosure. Similar tool holders are illustrated by 6,499,608; Lang 5,088,666; Garcia et al. 4,506,698; Blick 6,431,373; High et al. 6,467,618; Ramsey et al. 6,488,151; Ramsey et al. 6,168,018; Mapson 2,743,022; Kao 5,906,350.
